Seeking Neurosurgical Patient Stories

American Association of Neurological Surgeons
5550 Meadowbrook Drive, Rolling Meadows, IL 60008-3852 • Tel: 847-378-0500
Fax: 847-378-0600 • www.NeurosurgeryToday.org

The American Association of Neurological Surgeons (AANS) is seeking stories from neurosurgical patients of all ages to be submitted electronically on its user-friendly online Patient Story Submissions page. The goal of this initiative is to help educate people about the role of the neurosurgeon in treating a wide range of medical conditions and diseases.

Have you or a family member undergone successful surgery to treat Parkinson's disease, congenital deformities, hydrocephalus, tumors of the central nervous system, low back or neck pain, stroke, cerebral aneurysms, head injuries, or any of the many other conditions treated by neurosurgeons? If so, consider submitting your story and help the AANS reach out to the public. Parents may submit stories on behalf of their children, and family members may submit stories on behalf of immediate relatives.

Submissions will be subject to editorial review by a panel of neurosurgeon experts. Patients whose stories ultimately get posted on the Web site will receive a small monetary honorarium as a token of appreciation. Accepted stories may also be featured in press releases during Neurosurgery Awareness Week, Neurosurgery Outreach Month, or other public awareness campaigns.

Visit www.NeurosurgeryToday.org to submit your story!
